SECTION 5: SPECIFICATIONS AND EVALUATION CRITERIA

Background

The Port St Johns Local Municipality (PSJ LM) is one of the five local municipalities in the O.R. Tambo District Municipality. The PSJ Local Municipality attracts large volumes of tourists. The PSJ LM is located on the strategic position in the O.R. Tambo DM because O.R. Tambo was identified as the first pilot District Development Model (DDM) which was launched by President Cyril Ramaphosa in 2019. The Department of Cooperative Governance and Traditional Affairs (COGTA) has emphasised the institutionalisation of long-range planning through the DDM as a key element to realising the potential of a new coastal city.

In 2020/21 financial year Port St Johns Municipality developed its Spatial Development Framework (SDF) to guide development in a manner where changes, needs and growth can be managed for the benefit of the community.

In terms of population dynamics, 3% of the communities in Port St Johns live in town while 97% of the communities live in dispersed rural settlements which pose challenges to service delivery and quality of living standards. The PSJ LM has for years experienced challenges of sprawling unlawful development in the coastal zone, lack of service infrastructure, destruction of coastal forest illegal mining and alien plant invasions. Port St Johns Municipality has a high demand for affordable housing. However, the municipality has not been able to respond to this need. It is the intention of the Municipality to create sustainable communities that are self-sufficient and sustainable.

In order to address the need for integrated human settlements, PSJ LM has identified the Old Military Base (ERF 646) which is partly shared by the PSJ LM and Cuguba Community Property association (CPA) for Township Establishment.

This project is essentially proposed in the backdrop of creating a project that integrates development, economic development and infrastructure upgrade within the scope of Urban Renewal. Through the Spatial Development Framework, the PSJ LM has identified a piece of land in the Former Military Base to develop a Township Establishment. In terms of Spatial Planning and Land Use Management Act (SPLUMA), 2013 Township Establishment is one of the key aspects of land development. Township Establishment integrates various forms of developments (social-economic and environmental).

Township Establishment exercise consists of 8 Phases (see attached Project Phases). The Port St Johns Local Municipality has requested for assistance from O.R. Tambo District Municipality to assist with the Township Establishment in Ward 6. Through the technical engagements between ORTDM & PSJ LM it has been proposed that for 2022/23 Financial year the two Municipalities must focus on Phase 1 of the Project, i.e. Social Facilitation.

Scope of work

The Social Facilitator Services are expected to address amongst other things:

- Detailed engagements and negotiations between different stakeholders (Municipalities, Government, Land Claims Commission, Communities, Traditional Leaders, Youth and Women, Organised Business, NGOs, ect.).
- Facilitate community engagement and stakeholder consultation taking into account the situational analysis and better understanding of the socio-economic dynamics of the settlement, whilst involving stakeholders in the development process.
- Identify extent of housing needs and identify beneficiaries in collaboration with the Municipalities and stakeholders.
- Community mobilisation and promotion of public participation.
- Identify Community Structures and engage them in forming a Project Steering Committee which oversee the entire project from Phase 1 – 8.
- Identify Land Ownership Details.
- Provide the necessary guidance to the PSC to enable it to perform its role fairly and in the interest of the communities.
- Obtain current population statistics (of settlements/villages) from the community leaders.

- Obtain information on water infrastructure in the project area.
- Establish any potential conflicts among the community that could jeopardise the project.
- Facilitate the presentation of technical solutions to the PSC/community by the Technical Team.
- Obtain acceptance by signature (by PSC Members) of the proposed solutions.
- Advise the DM & LM on any social issues that need to be taken into account in the planning of the project.
- Prepare and submit report covering the above activities and submit to PSJ LM and ORTDM.
- The outcome of the exercise undertaken by the Social Facilitator will be the development of Draft Township Establishment Model and Draft Service Level Agreement.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
